

Community Services:

We can provide parents with a list of people who specialize in various aspects of early childhood education, i.e., health checks and immunizations, nutrition education, health & safety information, parenting classes, subsidy programs, health insurance information, speech evaluations, eye screenings, autism screenings, developmental delays, counseling, etc. Some services and screenings are available free or at reduced cost.

Early Intervention

Families with developmental concerns about children under the age of 3 may seek assistance from the Early Intervention System. Please contact Early Intervention System at 1-888-653-4463. This call is toll free for New Jersey Residents.

Community Resource

Community resource information is located on our website at www.thepreacad.com/resources.
